EDUCATION

Maharaja Surajmal Institute of Technology
Bachelor of Technology in Computer Science - 8.8 SGPA

November 2022 – Present
New Delhi

EXPERIENCE

Groww
Software Developer Intern

January 2026 – Present
Bangalore

- Upcoming Software Engineer.

Future AGI
Software Developer Intern

October 2025 – December 2025
Bangalore

- Enhanced signup flow to capture accurate company information, helping the business team identify genuine organizations and improve lead targeting.
- Fixed frontend validation errors that caused unsaved keys and inconsistent feedback, improving data accuracy and user experience.
- Fixed UTM tracking loss in signup flow to ensure organization signups are correctly attributed to their source platforms, helping the team optimize marketing efforts.

GeeksforGeeks
Software Developer Intern

June 2025 – September 2025
Noida

- Contributed to building scalable Practice, Courses, and Jobs portals used by over **2 million users**.
- Built a shared video component in the course player across distributed services, improving video flow for **500K+ users daily**.
- Added URL query support to job filters, allowing users to share exact job results; led to a **20% increase in shared link clicks**.
- Optimized the “Problem of the Day” page by restructuring data dependencies, decreasing load time by 1–2 minutes for high-engagement users.

Duco Consultancy Private Limited
Software Developer Intern

March 2025 – May 2025
Gurugram

- Built business applications on Microsoft Dynamics 365 to optimize retail workflow management for clients.
- Optimized backend and database logic, utilizing C++ with multithreading and Object-Oriented Programming (OOP) principles to enhance modularity and concurrency, reducing latency by **40%**.
- Implemented robust validation and structured error-handling techniques, mitigating system errors by over **35%**.

PROJECTS

Zorofit | GitHub | Live

- Created a community-driven fitness platform with an intuitive interface to keep users connected and goal-focused, achieving **1,000+ views** through online visibility.
- Implemented personalized 7-day workout planning, real-time chat features, and integrated Firebase for user authentication and real-time data synchronization.

Smart School | GitHub | Live

- Engineered an AI-driven solution to digitize handwritten answers from images, accelerating grading efficiency for educators.
- Secured student access with a portal for result viewing and timed practice sessions, reducing manual evaluation by over **30%**, and developed the mobile application using React Native.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, TypeScript, SQL, HTML, CSS

Frameworks / Technologies: ReactJS, React Native, Redux, NextJS, Django

Developer Tools: Git, GitHub, Firebase, MongoDB, PostgreSQL, Vercel, Expo Go, Android Studio, Linux

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks
